

**INFORMAZIONI PERSONALI****Pietro Formisano**

Dipartimento di Medicina Traslazionale, Università degli studi di Napoli "Federico II",  
Via Sergio Pansini 5, Napoli – 80131, Italia.  
 + 39 081 746 4450  
 [fpietro@unina.it](mailto:fpietro@unina.it)

**ACTUAL POSITION**

**Full Professor of Clinical Pathology (MED/05) Università degli Studi di Napoli "Federico II"**

**PROFESSIONAL EXPERIENCE**

<b>Main roles currently held</b>	<p><b>Since 2022</b> Director of the School of Specialization in Clinical Pathology and Clinical Biochemistry - University of Naples "Federico II" <b>From 2021</b> Member of the Board of Directors of the Italian Society of Pathology and Translational Medicine (SIPMET) <b>From 2021</b> Member of the Scientific Committee of the Italian Society of Multi-specialist Regenerative Medicine and Surgery (SIMCRI) <b>Since 2018</b> Secretary of the National College of Full Professors of Clinical Pathology <b>Since 2018</b> Coordinator of the Level I Program "Advanced Endocrinological Diagnostics" at the DAI of Clinical Pathology - University Hospital "Federico II" <b>Since 2014</b> Full Professor of Clinical Pathology at the Department of Translational Medical Sciences - University of Naples "Federico II" <b>Since 2013</b> Coordinator of the Research Commission of the Department of Translational Medical Sciences - University of Naples "Federico II"</p>
<b>Main roles covered in the past</b>	<p><b>2018-2021</b> Member of the Commission for the National Scientific Qualification for the competition sector 06/A2 General Pathology and Clinical Pathology <b>2017-2019</b> President of the International Non Transfusional Hemocomponents Academy (INTHemA) <b>2014-2017</b> Head of U.O.S.D. of Laboratory Diagnostics of Endocrine Diseases at the DAI of Internal Medicine and Clinical Pathology - "Federico II" University Hospital <b>2012-2016</b> Member of the Scientific Committee of the Italian Society of Diabetology <b>2013-2017</b> Member of the Board of Directors of INTHemA <b>2009-2014</b> Head of the Functional Area of Diagnostics of Endocrine Diseases at the Department of Clinical Pathology of the "Federico II" University Hospital <b>2009-2014</b> Associate Professor of Clinical Pathology at the University of Naples "Federico II", Italy <b>2005-2009</b> Associate Professor of General Pathology at the Department of Cellular and Molecular Biology and Pathology "L. Califano" of the University of Naples "Federico II" (Faculty of Medicine and Surgery) <b>1997</b> Courtesy Associate at the "Diabetes Branch" of the National Institute of Diabetes and Digestive and Kidney Disease", National Institute of Health, Bethesda, USA <b>1997-2013</b> 1st level Consultant at the Department of Care (DAS) of Clinical Pathology of the Federico II University Hospital <b>1996-2004</b> University Researcher at the Department of Cellular and Molecular Biology and Pathology "L. Califano" of the University of Naples "Federico II" (Faculty of Medicine and Surgery) <b>1993-1995</b> Fogarty Fellow, at the "Diabetes Branch", National Institute of Diabetes, Digestive and Kidney Disease - National Institute of Health, Bethesda, USA</p>

**INSTRUCTION AND TRAINING**

**1999** Certified Board in Endocrinology and Metabolic Diseases, "Federico II University of Naples"  
**1995** PhD. in Cellular and Molecular Biology and Pathology, "Federico II University of Naples"  
**1993-1995** Fogarty Fellow, at Diabetes Branch, NIDDK, NIH, Bethesda, USA  
**1990 e 1992** Each year, 3 months, Visiting Fellow at Institute of Microbiology, University of Copenhagen  
**1990** Medical Doctor Degree , "Federico II University of Naples" (*summa cum laude*)  
**1988** 3 months, *Summer Student* at Joslin Diabetes Center, Harvard Medical School, Boston, USA

**PERSONAL SKILLS**

Main Language Italian

Other Languages English

**Management Skills** Organization of Scientific Meetings since 2004  
Coordinator, Scientific Committee of Department of Translational Medical Sciences, "Federico II University of Naples" (since 2013); President Elect, International Non Transfusional Hemocomponents Academy (since 2015); Director, U.O.S.D. Laboratory Diagnostics of Endocrine Diseases – "Federico II" University Hospital (since 2014)

**Professional Skills** University Lecturer since 1996 to date  
Members in academic and scientific committees  
Ad hoc reviewer for several peer-reviewed scientific journals

**Scientific Activity** The scientific activity carried out by Pietro Formisano is mainly dedicated to the molecular basis of diseases and to the identification of biomarkers. The results of his research are contained in about 200 papers *in extenso*.  
Prof. Formisano's studies have contributed to the identification of new biochemical mechanisms for the control and regulation of tyrosine kinase activity, endocytosis and the biological function of the insulin receptor. He also contributed to the identification and characterization of genotypic and phenotypic alterations in patients with type 2 diabetes. He then dealt with the role of isoenzymes of the protein kinase C (PKC) family in the transmission of the biological effects of insulin and growth factors, and therefore their role in metabolic and neoplastic pathologies. Prof. Formisano has studied the role of mesenchymal stem cells and the mechanism of action of growth factors in tissue repair and regeneration.  
More recently, the studies of Prof. Formisano have been aimed at studying the interactions between metabolic pathologies and the incidence and progression of neoplasms. In particular, the research group coordinated by him has identified new mechanisms through which the production and release of adipocyte factors can be controlled by nutrients (glucose, fatty acids) and control, in turn, the phenotype of breast cancer cells.  
These research activities were first carried out at the Department of Cellular and Molecular Biology and Pathology "L.Califano" and the Center of Endocrinology and Experimental Oncology of the CNR, and then at the Department of Translational Medical Sciences, where Prof. Formisano coordinates a group of young scholars. The work, however, also made use of important collaboration relationships both within the University and with some prestigious Italian, European and American institutions. Among these, the Joslin Diabetes Center of Harvard University in Boston, the University of Copenhagen, the DIBIT of the San Raffaele Hospital in Milan, the Research Laboratory on Polypeptide Hormones and Endocrine Pathophysiology of INSERM in Nice, the Helmholtz Center for Diabetes Munich in Germany, the University of Gothenburg, the Diabetes Branch, the Developmental Endocrinology Branch and the Clinical Endocrinology Branch of the NIH in Bethesda, the Medical College of the University of Ohio and Columbia University in New York.

## FURTHER INFORMATION

---

### EDITORIAL ACTIVITIES

Reviewer ad hoc for a large number of journals, among which: Diabetologia, Diabetes, J. Biol. Chem., PLOS One, J. Tissue Eng. Regen. Med., Curr. Pharm. Res., J. Cell. Physiol., Acta Diabetologica, Exp. Mol. Pathol., Nature Medicine, Int. J. Mol. Sci., Oncotarget, Cancer Letters, Scientific Reports and many others

### ACADEMIC AND SCIENTIFIC SOCIETIES AND AWARDS

1990 - 2010: Member, American Society for Biochemistry and Molecular Biology

1996 to date Member, European Association for the Study of Diabetes

2012 - 2015 Member, Academy of Non Transfusional Hemo-Components. Member, Board of Directors

2012 to date Member, Italian Society for the Study of Diabetes (SID)

2016 to date Member, Italian Society of Mesenchymal Stem Cells (GISM)

2012 - 2016 Member Scientific Committee Italian Society for the Study of Diabetes

2015 -2019 President International Non Transfusional Hemocomponents Academy (INTHemA)

2021 to date – Member Scientific Committee Italian Society of Regenerative Medicine and Surgery (SIMCRI)

### INTERNATIONAL/NATIONAL RESEARCH GRANTS/AWARDS

#### International

- 2011 European Federation for the Study of Diabetes (EFSD) 2011 Research Grant: Adipocyte control of cancer cell growth. (Principal Investigator)  
Duration: 24 months
- 1997 "Courtesy Associate", Diabetes Branch, NIH, Bethesda, MD, USA.

#### National

- 2019-2021 POR Regione Campania – Piattaforma Oncologica Comorbidità ed Epigenetica nel Cancro – COEPICA “ (Project Scientific Coordinator) Duration 30 months
- 2016-2018 AIRC Research Grant “Identification of novel glucose-regulated communication signals involved in Tamoxifen resistance in breast cancer cells (Principal Investigator) Duration: 36 months
- 2012 - PON R&C 2007-2013: Study for the realization of a diagnostic platform for the identification of personalized therapeutic strategies for the treatment of type 2 diabetes through genomic and transcriptomic approaches (PON01\_02460)(Unit Coordinator and Training Program Coordinator)Duration: 36 months
- 2011-2014 AIRC Research Grant: Identification of novel molecular pathways for diabetes-associated drug resistance in breast cancer cells. (Principal Investigator) Duration: 36 months

- 2010 PRIN: Identification of molecular, metabolic and clinical determinants in the progression of heart failure: a translational medicine approach to identify novel therapeutic targets (Unit Coordinator) Duration: 36 months
- 2008 FIRB MERIT: Novel molecular networks for the control of energy homeostasis: implications for type 2 diabetes and obesity. (Unit Coordinator) Duration: 36 months
- 2006 PRIN Endoplasmic reticulum stress: a potential novel mechanism of cell damage in diabetes. (Unit Coordinator) Duration: 24 months
- 2004-2006 AIRC Research Grant Molecular mechanisms controlling protein kinase C function in cancer cells. (Principal Investigator) Duration: 36 months
- 2003 PRIN: Molecular mechanisms controlling cell proliferation and apoptosis. (Unit Coordinator) Duration: 24 months
- 2001-2003 AIRC Research Grant - The role of protein kinase C isoforms in growth factor receptor signal transduction. (Principal Investigator) Duration: 36 months
- 1999 – Award Italian Society for the study of Diabetes (SID)
- 1996-1998 AIRC Seed Grant – Molecular basis of oncogenic potential of insulin receptor. (Principal Investigator) Duration: 36 months
- 1994 -I “ Fogarty International Center” fellowship
- 1993 - “Istituto Rotariano per l’ Italia Meridionale” fellowship
- 1992 - “Fondazione Leonardo di Capua” fellowship.

## RESEARCH ACTIVITY

Number scientific publications: **195**

H-Index (Scopus): **41**

Number citations (Scopus):**5488**
