

3rd International Webinar organised jointly by the Executive Boards of Me.F.A.V.S.

(Mediterranean Federation for Advancing Vascular Surgery)

and RSCN (Reference Site Collaborative Network)

Thursday April 15, 2021

9:30 a.m. —> 12:30 a.m.

On-line Event

Advancing collaborative approaches for research about Diabetes, Covid-19 and Innovation in Vascular Surgery

FINAL PROGRAM

A synergistic and collaborative approach to the dissemination of research results is essential to share knowledge to ensure the improved provision of high quality, cutting-edge services to citizens.

With this in mind, we are pleased to follow up the series of webinars jointly organized by the MeFAVS and the RSCN Network, which started with the first meeting on 2nd December 2020 and continued with the second meeting in March 18th 2021.

The aim of this event, which will be delivered in 3 sessions is to explore further (a) Diabetes and its complications in vascular surgery; (b) Covid 19 and its vascular implications; and (c) research, technical, and technological innovations in Vascular Surgery. Presentations and discussions will be led by international experts on diabetes and vascular surgery making referenced to their research and work in this area. Building on the success of the relationship between Me.F.A.V.S. and the

RSCN, the meeting will also explore synergies with other relevant networks such as EAPE (European Association Professors Emeriti).

PRESIDENT: C. SPATERA

9:30 Welcome and introduction: G.C. Bracale, L. Califano, M.Triassi

J.J. Hoballah: Keynote lecture, Vascular disaster due to terrible explosion happened in Beirut on August 4, 2020

Emerging synergies for knowledge exchange:

M. Illario the opportunities provided by the Reference Site Collaborative Network – RSCN

N.G. De Santo the opportunities provided by the European Association Professors Emeriti - EAPE

Comments: E. Hussein, C. Setacci, M. Taurino

FREE PAPERS SESSION

Chairmen: G.C. Bracale, B. Saleem, A. Stella

1st Sessions

Diabetes and its complications

E. Hussein: Requirements to establish a Multidisciplinary Diabetic Foot Center

G. Annuzzi: Telemedicine in diabete care

J.J. Hoballah: Predictors of healing of toe amputations in diabetic foot infections

N.M. Bouayed: Revascularisation and growth factor injection: it is effective for the healing of foot ulcers

G.Faggioli: Contemporary treatment of peripheral arterial disease in the diabetic patient

E. Dinoto et al: Diabetic foot revascularization in Covid 19 patient

PRESIDENT: G. Bajardi

2nd Session

Covid 19 and vascular implications

Chairmen: N.M. Bouayed, L. Di Marzo, E. Hussein

- R. Serra: Cardiovascular disease as a biomarker for an increased risk of COVID – 19 infection and related poor prognosis.
- A. Stella: Enoxaparin and Covid-19: after more than 100 years, heparin remains a drug of vital importance
- A. Freyrie: Acute limb ischemia in Covid-19 patients
- C. Zeebregts - B. Saleem: The carotid care in Groningen during COVID-19 time
- G. De Donato: The limitations of social behaviour imposed by COVID-19 impacted the perception and the evolution of peripheral arterial disease negatively.

PRESIDENT: C. Pratesi

3rd Session

Technical and technological innovations in Vascular Surgery; research in Vascular Surgery

Chairmen: G. Faggioli, J.J. Hoballah, C. Zeebregts

- E. Verhoeven: 4xFEVAR: is it always needed to stent the celiac artery
- M. Gargiulo: Predictors of clinical outcome of fenestrated and branched endovascular repair of complex abdominal and thoracoabdominal aortic aneurysms in an Italian multicenter registry.
- R. Pulli: PDTAA repair with a new inner branched device
- G. Pratesi: Aortic neck coverage and curvature analysis in challenging aortic neck
- F. Setacci: Aortic Erosion of Self-Expandable Aortic Prosthesis Treated with Endovascular Aortic Repair
- P. Sangiuolo: Late “open” conversion after failed EVAR.
- L. Di Marzo: Advanced Endovascular Surgery.
- P. Sirignano: Ad interim results of Multicenter Nonrandomized Study on Unibody Endograft Aortic Aneurysm Repair Using AFX 2 for Less Invasive and Faster Endovascular Aortic Repair (AFX2-LIVE).

Discussion Catalysts: G.M. Biasi, U.M.Bracale, M. Taurino

Time allowed for each presentation: 5 minutes plus 2 minutes for discussion

On behalf of Me.F.A.V.S Executive Council

G.C. Bracale

U.M. Bracale

M. Taurino

On behalf of RSCN Executive Board

J. Bousquet

M. Illario

A. Carriazo
